

Red Earth Worship-Warrior School Equipping Seminars

As a means of introducing these equipping seminars to you, we would like to share three testimonies related to what these seminars enable the Body of Christ to do within their assigned territories.

Breaking the Curse of Bio-Terrorism

Just after the WTC disaster, unknown individuals began sending through the postal service envelopes filled with anthrax from somewhere in the city of Trenton, NJ. The effect on the nation, already in shock, was severe and even more so in the state of New Jersey. However, because there were already spiritual mappers within the prayer networks in New Jersey, they were able to link the current event with an ancient bio-terrorism event perpetrated by William Trent, the namesake of Trenton, NJ, in 1763 against the Ottawa Indians who at the time were laying siege to Fort Pitt. Inspired by a British commander, William Trent had sent into the Ottawa camp two blankets and several cloths which were inoculated with the small pox virus. The effect on the Ottawa people was devastating; the surviving remnant packed up and headed into the Ohio Valley carrying the small pox with them increasing the terror for all people they came in contact with.

On November 1, 2002, we, Jim and Faith went to New Jersey as inspired by the Holy Spirit and a prophetic word given several weeks before by Chuck Pierce. With a united representation of the prayer networks of New Jersey, we activated about twelve Native believers who participated in this event and released the pre-emptive forgiveness of God to those immigrant believers present representing the immigrant bloodlines who perpetrated the act in 1763. We then removed the defilements of bloodshed and broken covenants from the spiritual landscape caused by this act and united with the Body of Christ as one, we broke the ancient curse of bio-terrorism in the landscape. The impact was immediate resulting in no more anthrax attacks through the postal system from Trenton, NJ.

The Body gave us two blankets inoculated this time with worship and praise to God and we had them send these blankets through the postal system to our address in Montana to cleanse this system from any lingering effects of the bio-curse.

Closing the Northern Gate to the Dalai Lama

In the early spring of 2004, we received notice of the plans of the Dalai Lama to travel to Toronto, Canada and release 722 occult Tibetan spirits into the Great lakes Northern Gate of our country. The Spirit of God raised up a great army to prevent this from happening and inspired us to gather a team at Sault Ste Marie, Canada, equip them in the ways of territorial warfare and deliverance, and as one Body begin the process of dismantling the defilements in this gateway and shutting down the residential spirits thus negating their ability to invite the 722 spirits into the spiritual landscape of this region. The result was immediate; the Dalai Lama himself said, "Toronto is a very hard place; I could not accomplish what I planned to do." In other words, he could not release the 722 occult spirits into this very important northern gateway, and had to take them home with him.

Turning the Nation from Ohio

I (Jim) was just completing my general session in the Clash of Kingdoms conference hosted by Peter Wagner in Dallas, TX, in July, 2004, when Chuck Pierce stepped up to us and gave us this very strong prophetic word:

"The Lord would say there is a confusion over OHIO and **a gate that is coming into that State that must be shut during this hour**. For it is that gate that will cause many who are **standing on the fence to stay on the fence**. But I can say to **you** (Jim and Faith), I can send you into that place and not only can **you shut the gate but you can tear down the fence**, saith the Lord. I say there is a fence in Ohio that must be torn down, for in this hour, that which would determine the **racist wars of the future** dwell within that state, and the **political force** that is linked with that racism. I say to you, it is the determining force of how those that will stay on the fence or come off the fence. I say **shut the gate, tear the fence down, and cause this nation to turn in a new direction**, saith the Lord."

Then, later this same day, Chuck gave us a direct command to go to Ohio and do what the Lord said in this state.

In the third week in September, we flew into Akron, OH and immediately began dismantling the "fence" the moment we touched down at the airport as directed by the Holy Spirit. With several key leaders from this region, we traveled to Cincinnati moving against the fence all the way through the state. Then at Cincinnati, we gathered a small team of well-trained special ops prayer warriors and closed the "gate" which was located in the newly dedicated Under Ground Railroad Freedom Center built between the two sports stadiums in the downtown area. We then moved against and dismantled the high place over Cincinnati and "**caused this nation to turn in a new direction**" by a direct command into the heavenlies.

The results of this action were revealed on Election Day when the direction of our nation was decided by the votes cast in Ohio. It is estimated that 60% of the evangelical vote turned out on Election Day in Ohio and overwhelmingly voted for President George Bush.

Legally Opening Territories for the Body of Christ:

Without a legal connection to the spiritual land, the Church cannot legally and righteously invade it as an expression of the Kingdom of God. In many areas we are invited to, we find the Body of Christ stymied in their attempts to unite together and local leaders weary from trying to penetrate the hard, high places ruled by religious structures. After our equipping seminar everything changes for both the leaders and the Body of Christ. Why? Because we help the Church spiritually recognize and understand the righteous, legal protocol God established for linking and advancing His Kingdom IN the Earth.

Seminar Format:

Our seminars have the most impact when we can train participants for a period of at least three days. Generally, we begin on Thursday evening building relationship and activating the spiritual hearts of those participating in this ministry. Then we equip on

Friday in four or five sessions and go on site to several locations throughout the area on Saturday, weather permitting, to practice what has been imparted. The first act we do is to show participants how to sanctify and set apart their homes and lands from the surrounding territory to become places where the Kingdom of God is welcomed. Then we will go to several fairly low-level demonic structure sites and show, by example, how to discern what is at the site and how to dismantle it. Every participant has an opportunity to join in these activities.

Seminar Resources:

We have produced a manual called “Thy Kingdom Come Thy Will Be Done IN Earth” to help anchor what we teach in the heart of participants. We also make available what is probably the most important resource our book which is called “Activate My Spiritual Heart, OH Lord!” You can go the link for these resources and review the summaries provided for these books and download the book order form if you want to purchase them for your library.

Seminar Endorsements:

The following statements are from several fellowships we have worked with in their territories; space does not permit us to tell you how the Lord has truly blessed these fellowships and the many intercessors who have been part of our territorial deliverance teams with evidence of fruitful multiplication of Kingdom resources of all kinds.

"My wife, Kathy, and I have had the distinct honor of being on several Red Earth Worship Warrior teams over the past three years. We have learned that the Holy Spirit is drawn to those who step out in simple obedience....especially when our natural minds have no frame of reference. The results we have seen stagger the imagination. If only the entire Body of Christ could experience this training!"

Richard and Kathryn Jordan
Ark of the Covenant Ministries
Carmel, IN 46033

“Apostle Jim and Prophet Faith Chosa work tirelessly to uncover the territorial spirits that keep regions bound by the enemy. They equip pastors, intercessors and leaders with powerful tools to redeem the land, and take back what the enemy has stolen.”

Apostle Richard Skoff
Senior Pastor - David's House
Cuyahoga Falls, OH 44221
