

“SO BE done with every **trace of wickedness**” (1 Peter 2:1) AMP

Breaking the Serpent Code: A First nation Perspective for Healing DNA! Jim and Faith Chosa in this book unravel for the believer the hidden realm of DNA, reveal mankind’s highest destiny and expose the greatest “bait and switch” crime against humanity to change and suppress human identity and subvert human destiny. In the process of unraveling this mystery, they also expose the hidden power behind all religions causing mankind to pursue a fraudulent destiny filled with dead end dreams and false visions, and reveal God’s solution and the protocol of the Spirit to bring the power of the Blood drenched Gospel to open up the DNA realm to the transforming works of the Cross to break the hidden code of the Serpent, which has bound mankind to darkness for over six thousand years. Consider the brief testimony of one who has received the deep restoring work of Christ within her DNA:

As a small child I was sexually abused and experienced the horrors of satanic ritual abuse. In order to cope, my mind and heart compartmentalized the betrayal, pain, abuse and the duplicity of my life, and I developed a multiple personality . . . I had experienced a great deal of visible healing yet I still knew, within myself, more work needed to be done . . . years later I attended a Wagner Leadership Institute class called “Repossessing the Spiritual Landscape of America” taught by Jim and Faith Chosa in Denton, TX. The first day of the class Jim said, “As indigenous people of the land, we want to welcome you home.” As we stood to receive this welcome and impartation, tears coursed down my face. I could feel the fragmented parts inside me responding, ready and longing to come “home” and to be made whole. With awe and thanksgiving, I drank in the teaching on uprooting the demonic structures in the land. Suddenly, as Jim explained a diagram on the board, I recognized it as the piece the Lord had promised. As Jim led us in a group prayer, I knew the demonic structure and programming were coming down and I was becoming the whole unified person I was created to be.
